

BIG PICTURE

A vibrant and creative team building event where teams paint sections of a giant masterpiece that later fits together as one stunning group artwork.

Teams first earn their paints by completing fun art-themed challenges: matching artists to paintings, spotting fakes, and solving "The Heist" puzzle. They then scale up the blueprint, mix colours and paint their individual canvases.

While teams start competitively, success depends on collaboration to match scale and colours perfectly. The grand unveiling reveals the full picture – a high-impact finale that highlights the power of teamwork.

The finished Picasso-style Mediterranean Landscape (customisable with your company logo) is displayed back at the office as a proud reminder of what great collaboration can achieve!
